

I am writing you concerning the blatant and naked abuse of the public airwaves by Sinclair Broadcast Group. I believe this abuse is outrageous and a transparently political act in support of the Republican candidate for President. This "story" is not news, it is merely a hatchet job by a right-wing hack, and the actions by Sinclair are nothing more than partisan political advertising for the currently unelected fraud occupying the White House.

I demand that the FCC take action to deny Sinclair the continued use of the public airways.

Thanks, Doug Petro
